

CHANGELOG

Append-only history of documentation-relevant product changes.

2026-07-23 — Rename BanOne-BackEnd → BankOne-BackEnd

Field	Value
Feature	Fix misspelled backend folder name
Files Modified	Folder rename; scripts, README, docs, architect rule
Classes Modified	N/A
Methods Modified	N/A
Reason	Correct spelling to match BankOne branding
Impact	Re-open IntelliJ on BankOne-BackEnd

2026-07-23 — Move backend into BankOne-BackEnd

Field	Value
Feature	Relocate Maven src + pom.xml under BankOne-BackEnd/
Files Modified	BankOne-BackEnd/**, scripts/redeploy-liberty.sh, README.md, docs paths, architect rule
Classes Modified	N/A (path move only)
Methods Modified	N/A
Reason	Separate backend folder alongside BankOne-Frontend
Impact	Open IntelliJ on BankOne-BackEnd ; redeploy script builds from new root

2026-07-23 — Documentation formatting / alignment fix

Field	Value
Feature	Restyle DOCX + PDF (margins, tables, headings, code blocks)
Files Modified	Bank0ne/docs/**/*.*.docx , **/*.*.pdf , docs/_assets/* , scripts/regenerate-docs.sh , scripts/_polish_docx.py
Classes Modified	N/A
Methods Modified	N/A
Reason	User reported poor alignment inside exported docs
Impact	Open refreshed PDF/DOCX; use regenerate script after content updates

2026-07-23 — Docs format: Word + PDF in project folder

Field	Value
Feature	Replace Markdown docs with DOCX/PDF; move under Bank0ne/docs
Files Modified	Bank0ne/docs/** (docx+pdf), removed workspace /docs markdown; .cursor/rules/documentation-architect.mdc ; Bank0ne/README.md
Classes Modified	N/A
Methods Modified	N/A
Reason	User requested PDF/Word instead of MD, located in the project folder
Impact	Architect rule treats .docx as editable source and .pdf as distribution copy

2026-07-23 — Documentation baseline (Software Architect)

Field	Value
Feature	Establish living <code>/docs</code> synchronized with codebase
Files Modified	<code>docs/**</code> , <code>.cursor/rules/documentation-architect.mdc</code>
Classes Modified	N/A (docs only)
Methods Modified	N/A
Reason	Permanent architect mandate: docs are part of source; capture current implemented state
Impact	All future features must update these docs + append this changelog

2026-07-23 — Account policies GET + opening deposit UX

Field	Value
Feature	Policy-aware opening deposit for Current accounts
Files Modified	Backend: <code>AccountPolicyController</code> , <code>AccountPolicyService / Impl</code> ; Frontend: <code>account-policy.ts</code> , <code>opening-deposit-dialog/*</code> , <code>customer-detail.ts</code>
Classes Modified	<code>AccountPolicyController</code> , <code>AccountPolicyServiceImpl</code> , <code>Angular OpeningDepositDialog</code> , <code>CustomerDetail</code>
Methods Modified	<code>getActivePolicy()</code> , <code>addCurrentAccount()</code> , <code>dialog submit</code> → <code>openAccount</code>
Reason	CURRENT/INR policy requires min opening deposit (seed 5000); UI must not hardcode <code>1</code>
Impact	Customer detail Current flow; account open validation; docs <code>MODULES/Account.md</code> , API, sequences

2026-07-22 — Accounts list + deposit API

Field	Value
Feature	Accounts search UI + POST /accounts/{id}/deposit
Files Modified	AccountController , AccountServiceImpl , DepositRequest , frontend features/accounts/* , sidebar route
Classes Modified	AccountController , AccountServiceImpl , AccountList
Methods Modified	searchAccounts() , deposit()
Reason	Staff can find accounts and credit balances
Impact	No ledger rows yet; Transaction module still stub
